

Harmattan - About

About this project

Harmattan, named after the trade winds that blow during the dry season in West Africa, is designed to suit the needs of languages using the Arabic script in West Africa. People in other regions have found the font useful on mobile devices.

For more information on the visual characteristics of the font see [Design](#).

Future plans

The highest priorities for future additions and enhancements are mainly driven by:

- New additions to [The Unicode Standard](#)
- Requests from language communities using the fonts
- Needs of the linguistic and academic community

Please send us your requests using the [form on the font website](#). If you are interested in helping us make the font better see the [Developer](#) page.
